

# TRAVELING OVERSEAS?

## AmeriHealth Out-of-the-Country Coverage

In the event of an emergency when traveling overseas, please note AmeriHealth Administrators will cover a medical emergency at the Out-of-Network rate. A medical emergency claim can be sent over to AHA for processing when you return from abroad. However, there is **no coverage** for routine and non-emergency visits overseas.

You do not need to notify AHA that you are leaving the country. Any emergency services would be paid upfront and then reimbursement would be requested upon return.
