# MAXIMIZE YOUR BENEFITS

## Always Consider Your In-Network Options First

You will typically pay less for covered services when providers are in-network with your medical plan. In-network providers agree to discounted fees. You are responsible only for any copay or deductible that is included in your plan design. **The amount you are required to pay out-of-pocket for out-of-network services may be significant.**

## To Locate Participating In-Network Providers:

- **Aetna Participants:** Visit [www.aetna.com](http://www.aetna.com) and select "Find a Doctor."
- **AmeriHealth Administrators Participants:** Visit [www.myahbenefits.com](http://www.myahbenefits.com), select "Members" and then "Find a Doctor."

## Make Sure You are Using In-Network Labs

- **Aetna Participants** may use either **Quest Diagnostics** or **LabCorp** for lab work.
- **AmeriHealth Administrators Participants** must be sure that their providers send all blood work to a **LabCorp** location or other free standing lab. **Quest Diagnostics is not participating in the AmeriHealth Administrators network.**

## In-Patient or Observation:

The difference between *inpatient* and *observation* status is important because benefits and provider payments are based on the status. Patients admitted under observation status are considered outpatients, even though they may stay in the hospital and receive treatment in a hospital bed.

Hospital admission status may affect coverage for services such as skilled nursing. Some health plans, including Medicare, require a three-day hospital inpatient stay minimum before covering the cost of rehabilitative care in a skilled nursing care center. However, observation stays regardless of length, do not count towards the requirement.

A new law requires hospitals to give Medicare patients notice of an observation status within 36 hours. This status determines how the hospital bills your health plan. Even if you are NOT under Medicare, when you or your family member arrives at the hospital, you can ask questions like:

- Is the patient's status *inpatient* or *observation*?
- How long will the hospital stay be?
- Will there be a need for specialized skilled or rehab care after discharged?

Asking these questions throughout the hospital stay is important because hospitals can change the status from one day to the next. You can ask to have the status changed, but it is important to do so while still in the hospital. If necessary, you can request the hospital's patient advocate for assistance.

# URGENT CARE CENTERS

Urgent Care Centers are on **average 80% less costly than** Emergency Rooms. Plus, the Urgent Care copay matches your Specialist copay!

Urgent care centers are a **convenient, cost-effective** medical care alternative when your primary care physician is unavailable. Typically no appointments are necessary at most urgent care centers, and hours extend beyond regular doctor's office hours making them available earlier and later than your primary care physician. Most are open **7 days a week!** **To find an In-Network Urgent care center near you visit your medical carrier's website.**

Treatment at an urgent care is useful and appropriate for medical services that are not an emergency and require additional treatment such as:

- Allergies
- Asthma
- Sore Throat
- Stiches
- Ear Infection

Below is a list of the medical plans, the emergency room cost, an urgent care center cost and your medical cost.

# ADDITIONAL PRESCRIPTION PLAN INFORMATION

## BENECARD

The following additional features will apply to some of the prescription plan offerings. Please refer to the Benecard Member Brochures posted on your BenePortal for further details.

- **Mandatory Generics:** Pharmacists must dispense the generic equivalent medication when available. If a member fills the brand name drug instead, they will be responsible for the brand drug copay plus the difference in cost between the brand and generic medication. (Applies to NJEHP & GSP only).
- **Step Therapy:** Requires a trial with a lower cost medication before the member is given approval for a higher cost medication, when clinically appropriate. If a member purchases the higher cost medication without prior approval, then the medication will not be covered. (Applies to NJEHP & GSP only).
- **Formulary List:** A guide for selecting clinically and therapeutically appropriate medications. This list includes a majority of brand and generic medications, and also lists certain medications which will not be covered. The formulary updates throughout the year, and brand name drugs may move to non-formulary status if a generic version becomes available during the year. # FLEXIBLE SPENDING ACCOUNTS

## BENEFIT EXPRESS/WEX

A Flexible Spending Account (FSA) allows you to have money deducted from your pay on a pre-tax basis and put into an account that you can use to pay for eligible expenses. There are three types of accounts available to all employees of the District, administered by Benefit Express: **Medical, Dependent Day Care and Commuter (Parking & Transit).**

Please note, the plan year for all accounts runs from January 1<sup>st</sup> through December 31<sup>st</sup>. For additional information, please refer to your BenePortal site or contact the Benefits Administrator in your Business Office.

### Medical FSA

To participate in the Medical FSA you must make an election before the beginning of the plan year. If you participate, you will elect to have a specified amount of pre-tax money deducted from your paycheck each pay period. Once enrolled, you will be issued a debit card to access funds in your Flexible Spending Account. Present your card at the time of payment to make qualified purchases for medical goods and services. Alternatively, you may submit a receipt for a qualified expense, and be reimbursed from this account.

Common expenses that are eligible include copays, deductibles, prescriptions, vision and dental expenses. The maximum you can contribute for the 2022 calendar year is **\$2,850**.

A complete list of expenses eligible under the Medical FSA is available at [www.myfsaexpress.com](http://www.myfsaexpress.com) or by visiting the IRS website.

Please note, an FSA is a "Use-It-Or-Lose-It" account. Any unused contributions will **not** rollover into the new plan year.

### Dependent Day Care FSA

Common expenses that are eligible include; daycare facilities, after school programs, summer day camp, and in-home babysitters.

The maximum you can contribute during the plan year is \$5,000 per family unit. If you are married filing separately the maximum contribution is \$2,500. Dependent children are covered under this account to the age of 13.

Like the Medical FSA, unused contributions will not roll over into the new plan year.

### Commuter Benefits

You can put aside pre-tax dollars to pay for mass transit and parking expenses associated with your daily commute to work. Employees of the District are also allowed to enroll in one of or both a Mass Transit or Parking account.

Qualifying expenses range from buses, ferries, ridesharing services (Uber & Lyft), and parking expenses near your place of employment.

For a full list of eligible and ineligible expenses, please visit [www.myfsaexpress.com](http://www.myfsaexpress.com) or your BenePortal site.

The maximum amount you may contribute for parking and transit is **\$280 per month** via payroll deductions.

# LEGAL NOTICES

## Availability of Summary Health Information

As an employee, the health benefits available to you represent a significant component of your compensation package. They also provide important protection for you and your family in the case of illness or injury.

Delran offers a series of health coverage options. You should receive a Summary of Benefits and Coverage (SBC) during Open Enrollment. These documents summarize important information about all health coverage options in a standard format. Please contact Human Resources if you have any questions or did not receive your SBC.

## Patient Protection and Affordable Care Act

Please note: the Delran medical plans are considered compliant with the Patient Protection and Affordable Care Act. There are no annual limits, dependent children can be covered to age 26 and preventive care is covered at 100% with no member cost-sharing and the pre-existing exclusion limitations have been removed.

As new Health Care Reform requirements become effective, the Delran plans will be modified. We are fully committed to complying with all regulations and intend to notify you as soon as possible of any change(s).

## Newborns' and Mothers' Health Protection Act

Group health plans and health insurance issuers generally may not, under Federal law, restrict benefits for any hospital length of stay in connection with childbirth for the mother or newborn child to less than 48 hours following a vaginal delivery, or less than 96 hours following a cesarean section. However, Federal law generally does not prohibit the mother's or newborn's attending provider, after consulting with the mother, from discharging the mother or her newborn earlier than 48 hours (or 96 hours as applicable). In any case, plans and issuers may not, under Federal law, require that a provider obtain authorization from the plan or the issuer for prescribing a length of stay not in excess of 48 hours (or 96 hours).

## Women's Health and Cancer Rights Act

If you have had or are going to have a mastectomy, you may be entitled to certain benefits under the Women's Health and Cancer Rights Act of 1998 (WHCRA). For individuals receiving mastectomy-related benefits, coverage will be provided in a manner determined in consultation with the attending physician and the patient, for:

- all stages of reconstruction of the breast on which the mastectomy was performed;
- surgery and reconstruction of the other breast to produce a symmetrical appearance; prostheses; and
- treatment of physical complications of the mastectomy, including lymphedema.

These benefits will be provided subject to the same deductibles and coinsurance applicable to other benefits. If you have any questions, please speak with Human Resources.

## Premium Assistance Under Medicaid and the Children's Health Insurance Program (CHIP)

If you or your children are eligible for Medicaid or CHIP and you're eligible for health coverage from your employer, your state may have a premium assistance program that can help pay for coverage, using funds from their Medicaid or CHIP programs. If you or your children aren't eligible for Medicaid or CHIP, you won't be eligible for these premium assistance programs but you may be able to buy individual insurance coverage through the Health Insurance Marketplace. For more information, visit [www.healthcare.gov](http://www.healthcare.gov).

If you or your dependents are already enrolled in Medicaid or CHIP and you live in a State listed below, contact your State Medicaid or CHIP office to find out if premium assistance is available.

If you or your dependents are NOT currently enrolled in Medicaid or CHIP, and you think you or any of your dependents might be eligible for either of these programs, contact your State Medicaid or CHIP office or dial 1-877-KIDS NOW or [www.insurekidsnow.gov](http://www.insurekidsnow.gov) to find out how to apply. If you qualify, ask your state if it has a program that might help you pay the premiums for an employer-sponsored plan.

If you or your dependents are eligible for premium assistance under Medicaid or CHIP, as well as eligible under your employer plan, your employer must allow you to enroll in your employer plan if you aren't already enrolled. This is called a "special enrollment" opportunity, and you must request coverage within 60 days of being determined eligible for premium assistance. If you have questions about enrolling in your employer plan, contact the Department of Labor at [www.askebsa.dol.gov](http://www.askebsa.dol.gov) or call 1-866-444-EBSA (3272).

If you live in one of the following states, you may be eligible for assistance paying your employer health plan premiums. The following list of states is current as of January 31, 2022. Contact your State for more information on eligibility -
