

Wellness  
Coaches™

Engage. Inspire. Thrive.

## Nationwide COVID Testing

Wellness Coaches and our partners have unparalleled experience deploying rapid response, point of care, COVID-19 testing services at large scale. Our clients choose us because of our ability to provide speed, flexibility and high-volume services with the highest level of health, safety and regulatory standards.

## COVID Testing Options

### Rapid Onsite Tests:

- Quidel
- Abbott ID Now
- Abbott BinaxNOW
- Beckton Dickinson
- CUE
- Accula

We also offer onsite and at-home PCR testing.

## Our Clients and Experience

- ★ **Entertainment/Travel Industries:** Testing services for a variety of groups in these industries, including conventions, weddings, gaming, resorts, sports, Hollywood and television.
- ★ **Corporate Events:** Testing and other services at corporate events such as retreats, meetings or daily employee return to work screening services.
- ★ **Private Parties and Fundraising Events:** Testing throughout the U.S. at over 100 on-premise events. We test all attendees including state and federal officials, VIPs, USSS, staff, vendors and guests. Our testing can be set up in less than 24 hours.
- ★ **FEMA:** Testing services for JFO's, Emergency Outreach Sites and Disaster Recovery Centers at multiple locations throughout the U.S. This includes mobile testing deployment to multiple locations in each market area on a weekly basis.
- ★ **State of Florida, Division of Emergency Management:** 2,500 rapid result tests per day across 4 sites in the Miami area. Some of these locations are run by the National Guard. These sites were deployed within 48 hours of being awarded the contract.
- ★ **Department of Health and Human Services:** On-site nursing and clinical administration services on behalf of the HHS in surge cities such as Edinburg, TX, Baton Rouge, LA and Jacksonville, FL.

## A Complete System for Point of Care Testing

We are currently delivering one of the nation's most complete and trusted solutions for COVID-19 testing and screenings at scale. Our offering is turn-key and includes:

**State of the Art Technology:** Includes preregistration, scheduling, reporting and real-time delivery of results.

**Full On-site Deployment Capabilities:** We offer a customized array of fixed based and mobile testing options to accommodate any logistical needs.

**Experienced Medical and Clinical Staff:** Services are delivered via highly trained and licensed healthcare professionals who administer sample collection as well as provide medical and clinical oversight. The team has a nationwide network of over 4,500 licensed healthcare professionals.

**Best in Class Rapid Tests:** We have experience with all the top rapid tests, including Quidel, Abbott ID Now, Beckton Dickinson, CUE and Accula. We have also been trained to administer the new Abbott BinaxNOW test.

**Best PCR Testing Solutions:** We partner with industry leading laboratories to offer the top PCR testing platforms, including, the CDC 2019 Novel Coronavirus (2019-n-CoV) assay and the WHO SARS-CoV2 assay combined into one test.

**Comprehensive Reporting:** In real-time, participants are notified via email that results are available from a secure, HIPAA compliant portal. Nurse and physician consultations are also included.

**State and Federal Health Systems Integration:** Testing results and statistical information are reported to state and federal government health agencies via our technology solution.
